 **KYAUS**™

THE HISTORY, VISION AND VALUES OF KYAUS

OUR STORY & PURPOSE

KYAUS was founded in Switzerland in 2024 by Tiago, a physical education teacher and former professional futsal player who also spent several seasons playing football. The brand was born from his deep connection to the game and his firsthand experience of the realities on the pitch.

Built on practical experience, KYAUS was created to meet a clear need: to provide reliable, high-quality equipment developed for athletes, coaches, and clubs who demand consistency, performance, and professionalism.

From day one, our focus has been to understand the game from the inside and transform that knowledge into products and solutions that contribute to the growth and evolution of futsal and football.

OUR MISSION

To develop futsal and football balls and equipment that combine performance, durability, and functional design, supporting athletes and clubs in reaching their highest level with confidence and consistency.

Beyond our products, our mission is to contribute positively to the growth of the sport through long-term partnerships, high professional standards, and a responsible approach to the development of the game.

OUR VISION

To build a leading futsal and football brand in Switzerland, recognized for its quality, innovation, and positive impact on the sport.

From this foundation, we aim to grow sustainably into the international market, creating an ecosystem that brings together product, knowledge, and community.

Play with Kyaus.

A handball player's arm, wearing a black armband, is shown holding a blue and white handball. The player is positioned in front of a handball goal with a red and white striped frame. The background is a dark, blurred indoor sports arena. The floor is made of light-colored wood. The text "GAME AND TRAINING" is overlaid in large, bold, white letters, followed by two orange diagonal bars. Below the title, the phrase "Precision isn't talent. It's training!" is written in a smaller, white font. The overall composition is dynamic and emphasizes precision and training.

SIZE CHART

SUBLIMATED JERSEYS

A (Chest / Width) – Measurement taken from side to side across the chest area.

B (Length) – Measurement from the highest point of the shoulder down to the bottom of the jersey.

Due to the elasticity of the fabric, measurements may vary by ± 2 cm.

KYAUS Tip: If the child is between two sizes, choose the larger size for greater comfort during training and matches.
